

Anti-Corrosive MP-31

Description:

Anti-Corrosive MP-31 is a corrosion-avoiding coating, based on waxes.

Application Fields:

Anti-Corrosive MP-31 is suitable to protect the surface of any kind of metal, e.g. those of machine parts, dies or tools.

Application:

Anti-Corrosive MP-31 is the best solutions to protect injection moulding tools after cleaning before storing. Even applications of only small quantities result in very good protective properties.

Technical Data:

Composition:	hydrocarbons, additives
Appearance:	yellowish and brownish liquid
Density [g/cm³]:	approx. 0.72
Flashpoint [°C]:	< 0

Packaging:

Can	21.6 kg
Drum	144 kg

Storage:

Anti-Corrosive MP-31 should be stored in tightly sealed containers and has to be protected from frost, heat and direct sunlight. If these rules are obeyed, the product can be stored for at least 12 months. The expiry date is stated beneath the production date on the labels of each container.

Information for regulations on safety and transportation are provided in the safety data sheet

Product technical information and data is based on the best information available and does not constitute or imply a warranty or patent infringement of any kind. The user is responsible for testing product suitability prior to use in production.
