

Cleaner MR-70

Description:

MR-70 Cleaner is an easy-to-use, high performance aqueous cleaner for the cleaning of all surfaces used in industrial materials such as steel, aluminum, polyester resin, epoxy resin or glass fiber-reinforced plastics. The cleaner MR-70 was designed to achieve even at room temperature very good results. Cleaner MR-70 specifically solves stubborn release agents, resin residues and contaminants through the use of special fillers and surfactants.

Application Fields:

Cleaner MR-70 is used as a surface or mold cleaner.

Application:

The surfaces to be cleaned is wetted with the cleaner MR-70. After a few minutes contact time of the detergent the surface has to be cleaned by smooth circular movements. Instead of spreading the cleaner on the surface, the cleaner MR 70 can also be applied with a cotton cloth. Remnants of the cleaner can be easily removed with a dry cloth. Subsequently, the cleaned surface has to be degreased with the water-based cleaner MR-72 is degreased. That dispenses completely the use of fast drying solvents.

Technical Data:

Composition:	Emulsion of anionic surfactants with fillers
Appearance:	gray liquid
Density [g/cm³]:	approx. 1
pH-value (20°C):	approx. 10

Packaging:

Can	1 kg
Can	5 kg

Storage:

Cleaner MR-70 should be stored in tightly sealed containers and has to be protected from frost, heat and direct sunlight. If these rules are obeyed, the product can be stored for at least 12 months. The expiry date is stated beneath the production date on the labels of each container.

Information for regulations on safety and transportation are provided in the safety data sheet

Product technical information and data is based on the best information available and does not constitute or imply a warranty or patent infringement of any kind. The user is responsible for testing product suitability prior to use in production.
