

## Release Agent VPX-3 Spray

### Description:

Release Agent VPX-3 Spray is a liquid solvent-based external release agent, especially designed for the processing of polyurethane foams. On mould surfaces, it forms a monomolecular film having very good release properties in contact with the material being used.

### Application Fields:

Release Agent VPX-3 Spray is suitable for integral, rigid foam and cast urethanes. It can be used with both polyester- as well as polyether systems.

### Application:

Before the first application of Release Agent VPX-3 Spray, the moulds have to be cleaned thoroughly from residues of dirt and release agents. For these purpose we recommend the use of our product Cleaner R-51. The next step is to apply Release Agent VPX-3 Spray thin and homogenous.

### Technical Data:

<b>Composition:</b>	solution of resins in solvent
<b>Appearance:</b>	colourless liquid
<b>Density [g/cm<sup>3</sup>]:</b>	approx. 0.6
<b>Flashpoint [°C]:</b>	< 0

### Packaging:

Box 12 x 0,4 ltr. can

### Storage:

Release Agent VPX-3 Spray should be stored in tightly sealed containers and has to be protected from frost, heat and direct sunlight. If these rules are obeyed, the product can be stored for at least 12 months. The expiry date is stated beneath the production date on the labels of each container.

### Information for regulations on safety and transportation are provided in the safety data sheet

Product technical information and data is based on the best information available and does not constitute or imply a warranty or patent infringement of any kind. The user is responsible for testing product suitability prior to use in production.
